

ALAGAPPA UNIVERSITY

(A State University Established in 1985) Karaikudi - 630003, Tamil Nadu, India

DEPARTMENT OF ANIMAL HEALTH AND MANAGEMENT

M.Sc., ZOOLOGY

[Choice Based Credit System (CBCS)]

[For the candidates admitted from the academic year 2019 -2020]

The panel of Members-Broad Based Board of Studies

Chairperson

Dr.B.Vaseeharan, Professor and Head, Department of Animal Health and Management, Alagappa University, Karaikudi. Teaching Experience: 13, Research experience: 18, Area of Research: Invertebrate Immunotherapy, Nanopharmacology, and Biomaterials.

Foreign Experts

Prof. Dato' Dr.Alieen Tan ShauHwai, Director of Centre for Marine and Coastal Studies, UniversitiSains Malaysia (USM), alieen@usm.my. Working Experience – 30 Year, Research Experience- 27,Area ofResearch: Expertise is in marine science, specializing in mariculture and conservation of molluscs.

Indian Experts

Prof. M. Ramesh, Unit of Toxicology, Department of Zoology,Bharathiar University, Coimbatore - 641 046.mathanramesh@yahoo.com. Professional experience: Research - 25 Year, Teaching - 18 Years, Area of Research: Toxicology, Aquatic Toxicology, Fish Physiology and Biochemistry, Limnology, Aquaculture and Fisheries, Pharmacology and Toxicology, Eco biotechnology, Environmental Impact Assessment.

Expert from Industry

Dr.V.Ganeshan, Technical Director, Acme ProGen Biotech (India) Private Limited. He is a doctorate in Molecular Biology from the University of Madras. ProGen supplies instruments/equipment to support life sciences researches and also distributes the highest quality product of biochemicals.

Members

Prof.E.Kannapiran, Professor in Zoology, Alagappa University, Karaikudi, Teaching Experience: 21 years, Research Experience: 20 years, Area of Research: Aquatic Microbiology and Coral reef ecosystem.

Dr.P.Srinivasan, Associate Professor, Department of Animal Health and Management, Alagappa University. Teaching Experience: 12, Area of Research: Aquaculture Biotechnology, Phage therapy for Vibrio *spp* control in Aquaculture, Cancer biology.

Dr.N.M.Prabhu, Assistant Professor, Department of Animal Health and Management, Alagappa University, Karaikudi. Teaching Experience: 11, Research Experience: 11, Industrial Experience: 9 years, Area of Research: Disease Control and Prevention, Alternative medicine: Sulfated polysaccharides, probiotics, and nanoparticles.

Dr.M.Biruntha, Assistant Professor, Department of Animal Health and Management, Alagappa University, Karaikudi. Teaching Experience: 10 Years, Research Experience: 4 years, Area of Research: Vermitechnology.

Dr.V.Nithya, Assistant Professor, Department of Animal Health and Management, Alagappa University, Karaikudi. Teaching Experience: 10 Years, Research Experience: 10 years, Area of Research: Pharmacognosy.

Dr.P.Kumar, Assistant Professor, Department of Animal Health and Management, Alagappa University, Karaikudi. Teaching Experience:4, Research Experience: 4 years, Area of Research: Molecular Cancer biology.

Dr.SubeenaBagum, Assistant Professor in Zoology, Alagappa University, Karaikudi. Teaching Experience: 17, Research Experience: 9 years, Area of Research: Immunology.

Alumni

Dr. K. Devi, Post-Doctoral Fellow, Department of Physiology, Eastern Virginia School of Medicine, Virginia. Email: kdevinfmc@gmail.com, Teaching Experience: 6 months: Research Experience: 1 Year. Area of Research:Diabetology, Molecular Biology, Molecular Genetics.

REGULATIONS AND SYLLABUS

[For the candidates admitted from the academic year 2019 onwards]

1. Programme general objectives

The general objective of the M.Sc program in zoology is to develop strong-minded graduates with high-quality skills in the field of animal sciences. The curriculum designed to assist the students in understanding the vital concept of animal diversity, the function of living systems, from the cell and molecular biology to genetics, as well as evaluation, fishery biology, ecology, and conservation biology. At the end of the program, the student will gain in-depth knowledge in zoology subjects and play an active role in biological research, government or non-government organization, and private sectors.

2. Programme specific objectives

- 1. To provide the student with pertinent information in the field of Zoology.
- 2. To teach the student with a broad understanding of animals and their interactions with the environment.
- 3. To make clear how organisms function at the level of the gene, cell, tissue, organ, system, and physiology.
- 4. To provide in-depth knowledge to the students in the field of economic zoology that will give confidence to the student for self-employment.
- 5. To enable the students for preparing various government and private sectors competitive examinations

3. Programme outcome

On successful completion of the programme

- 1. The students will be able to engage in noteworthy, self-governing, and creative research in Zoology.
- 2. The skill-based courses support the student in developing entrepreneurship in the field of Zoology.
- 3. The student acquired significant knowledge to clear the competitive examinations.

4. Eligibility for admission

A candidate who has passed UG Degree with Zoology/Biological Sciences/Life sciences [except Botany] as the main subject of study from any University/colleges shall be permitted to appear and qualify for the M.Sc. Zoology programme.

5. Duration of Programme

The programme shall consist of two academic years, divided into four semesters. Each semester consists of 90 working days.

6. Teaching Methods

The classroom teaching would be through conventional lectures, use of OHP, PowerPoint presentation, novel innovative teaching ideas like television, smartboard, and computer-aided instructions. Periodic field visit enables the student for gathering the practical experience and up to date industrial scenario. Student seminars would be arranged to improve their communicative skills. In the laboratory, safety measures instruction would be given for the safe handling of chemicals and instruments. The lab experiments shall be conducted with special efforts to teach scientific knowledge among students. The students shall be trained to handle advanced instrumental facilities and shall be allowed to do experiments independently. The periodic test will

be conducted for students to assess their knowledge. Slow learners would be identified and will be given special attention by remedial coaching. Major and electives would be held in the Department, and for Non-major electives, students have to undertake other subjects offered by other departments.

7. Examinations

The examinations shall be conducted separately for theory and practical's to assess the knowledge acquired during the study. There shall be two systems of examinations viz., internal and external examinations. The internal examinations shall be conducted as Continuous Internal Assessment tests I and II (CIA Test I & II). The internal assessment shall comprise a maximum of 25 marks for each subject. The following procedure shall be followed for awarding internal marks.

7.1. Internal Assessment

7.1.1 Theory paper (Internal Assessment)

Average marks of two CIA test	10 marks
Attendance	5 marks
Seminar/group discussion/quiz	5 marks
Assignment/field trip report/case study	5 marks
report.	
Total	25 marks

7.1.2 Practical's (Internal Assessment)

CIA tests	10 marks
Attendance	5 marks
Observation notebook	10 marks
Total	25 marks

7.2. External Examinations

The external examinations of theory and practicals shall be conducted for three hours duration to each paper at the end of each semester. The external examinations shall comprise of a maximum of 75 marks for each subject. The candidate failing in any subject will be permitted to appear for each failed subject in the subsequent examination. Practical examinations and demonstration of experiments shall be conducted at first, second, and third semester. At the end of the fourth semester, the project work viva-voce examination will be held based on the dissertation report submitted by the student. Two examiners (one internal and one external) will jointly conduct the viva-voce examination for evaluation.

7.2.1 Scheme of External examination

Question paper pattern (Theory)

- 1. The question paper carries a maximum of 75 marks.
- 2. The question paper consists of three sections, namely Part-A, B, and C.
- 3. **Part-A** consists of 10 questions of 2 marks each ($10 \times 2 = 20 \text{ marks}$) with no choice. The candidate should answer all the questions.
- 4. **Part-B** consists of 5 either-or choice questions. Each question carries 5 marks (5 x 5=25 marks).
- 5. **Part-C** consists of 5 questions. Each question carries 10 marks. The candidate should answer any three questions ($10 \times 3 = 30 \text{ marks}$).

Question paper pattern (Practical) (Maximum 75 marks)

1.	Major Practical	15 Marks
2.	Minor Practical	10 Marks
3.	Experimental setup	5 Marks
4.	Spotters	25 Marks
5.	Viva-voce	10 Marks
6.	Practical Record Note	10 Marks

Total 75 Marks

8. Passing minimum

- a) For Internal and External Examination, Passing Minimum shall be of 50% (Fifty Percentage) of the maximum marks prescribed for the paper.
- b) In the aggregate (External + Internal), the passing minimum shall be of 50% for each Paper/Practical/Project and Viva-voce.
- c) Grading shall be based on overall marks obtained (internal + external).

9. Dissertation Work (Maximum Marks: 100)

The duration of the Dissertation Work shall be a minimum of three months in the fourth semester.

a) Plan of work

The candidate shall undergo Dissertation Work during the fourth semester. The candidate should prepare a scheme of work for the dissertation and should get approval from the guide. The candidate, after completing the dissertation work, shall be allowed to submit to the university at the end of the fourth semester. If the candidate is desirous of availing the facility from other universities/laboratory, they will be permitted only after getting approval from the guide. In such a case, the candidate shall acknowledge the same in their dissertation.

b) No. of copies of the dissertation

The candidate should prepare three copies of the dissertation and submit the same for the evaluation of examiners. After evaluation, one copy will be retained in the department library, one copy will be retained by the guide and the student shall hold one copy.

c) Format to be followed for dissertation

The format /certificate for thesis to be followed by the student are given below

- ➤ Title page
- Certificate
- ➤ Acknowledgment

Content as follows:

Chapter	Title	Page No
No		
1	Introduction	
2	Review of Literature	
3	Materials and Methods	
4	Results	
5	Discussion	
6	Summary	
7	References	

d) Format of the title page

Title of Dissertation

Dissertation submitted in partial fulfillment of the requirement for the degree of Master of Science in Zoology to the Alagappa University, Karaikudi -630003.

By (Student Name) (Register Number) University Logo

Department of Animal Health and Management Alagappa University

(A State University Accredited with "A+" grade by NAAC (CGPA: 3.64) in the Third Cycle and Graded as Category-I University by MHRD-UGC, 2019: QS ASIA Rank-216, QS BRICS Rank-104,

QS India Rank-20) Karaikudi - 630003

(Year)

Format of certificate Certificate

This is to	certify that the	dissertation	entitle	ed_						_ submi	tted
in partial	fulfilment for	the require	ment	of	the Degree	e of Mas	ster o	f Science	in Zool	logy to	the
Alagappa	University,	Karaikudi	is	a	bonafide	record	of	research	work	done	by
Mr./Mrs_		under	my sı	ıpe	rvision and	guidance	and	that no par	t of the	disserta	tion
has been s	submitted for th	ne award of	degre	e, c	diploma, fel	lowship	or oth	ner similar	titles or	prizes	and
that the w	ork has not been	n published i	n par	t or	in full in an	ny scienti	fic jo	urnal or m	agazines	5.	

e) Dissertation evaluation

Dissertation Work	:	50 Marks
Internal Assessment	:	25 Marks
Viva -voce	:	25 Marks
Total	:	100 Marks

10. Village Extension Programme (VEP)

The Sivaganga and Ramnad districts are very backward districts where a majority of people lives in poverty. The rural mass is economically and educationally backward. Thus the aim of the introduction of this Village Extension Programme is to extend out to reach environmental awareness, social activities, hygiene, and health to the rural people of this region. The students in their third semester have to visit any one of the adopted villages within the jurisdiction of

Alagappa University and can arrange various programs to educate the rural mass in the following areas for three day based on the following theme.

- 1. Environmental awareness
- 2. Hygiene and Health

A minimum of two faculty members can accompany the students and guide them.

11. Maximum duration for completion of the programme

The maximum period for completion of M.Sc. Degree in Zoology shall not exceed eight semesters.

12. Commencement of regulation

These regulations shall come into effect from the academic year 2019-2020 for students who are admitted to the first year of the course during the academic year 2019-2020.

13. Industrial visit/Internship/Field/Institutional visit:

Students have to undertake an industrial / Internship/Field/ institutional visit/educational tour and have to submit a report for evaluation (Satisfactory / Not Satisfactory).

14. Classification of the successful candidate

A candidate who secured not less than 60% of the aggregate marks in the whole examination shall be declared to have passed the examination in First class. All other successful candidates shall be declared to have passed in the Second class. The candidate who obtains 76% of marks in the aggregate shall be deemed to have passed the examination in first class with distinction provide they should have passed all the examination at the first appearance.

Candidates who passed all the examinations prescribed for the course in the first instance and within two academic years from the year of admission to the course are alone eligible for university ranking.

A candidate is deemed to have secured the first rank provided if he/she should have passed all the papers in the first attempt itself and should have secured the highest Cumulative grade point average (CGPA).

Each student should have taken 65 credits as a core course, 9 credits as a major elective; 4 credits as non-major elective, 12 credits as dissertation work, in addition, MOOCs courses as extra credits, thus totalingat least 90 + extra credits required to complete M.Sc. Zoology degreeprogramme. Each paper carries 4 /3/ 2 credits with 50% marks in the university examination and 50% marks in CIA.

Raw score	Letter Grade	Description	Grade point					
91 and above	S	First Class-Exemplary	9.01-10					
76-90	D	First Class-Distinction	7.51-9.00					
61-75	A	First Class	6.01-7.50					
56-60	В	Second Class	5.51-6.00					
50-55	С	Second Class	5.00-5.50					
Below 50	RA	Re-appear	-

eukaryotic systems.

Name of the Course Teacher: **Dr.P. Srinivasan**

The students will acquire fundamental ideas on the molecular basis of cellular

processes and interrelationship with particular emphasis on prokaryotic and

Weaver, R.F. (2012). *Molecular Biology* (5thed.). New York: McGraw-Hill.

Outcomes

		I Semester					
Course code	509105	Practical -Lab I	Credits: 4	Hours: 8			
Objectives	> To ur	derstand the anatomy (cockroach & frog) u	sing appropriate so	oftware.			
	To pr	To provide hands-on training in biochemical techniques and molecular biology					
	(mito	tic and meiotic cell division).					
Unit -I	Animal D	iversity-1: -Mounting - Cockroach - Mo	outhparts, Prawn -	Appendages,			
	Placoid sc	ales - Shark. Dissection of cockroach: Di	gestive, reproducti	ve & nervous			
	systems. E	arthworm body setae.					
Unit-II		iversity -II:-Dissections: -Understanding t		frog using an			
	appropriat	e software package (Carolina TM Biolab ^R – F	rog).				
Unit III	Biochemis	stry: - Preparation of solutions – Molarity	Normality, Perce	ntage - Buffer			
	preparation	n – Determination of pH. Estimation of	glucose, determin	ation of total			
	protein by	Lowry et al.					
Unit IV	Biochemis	stry-Demonstration-separation of amino a	acid by paper chi	romatography,			
	Separation	of protein by electrophoresis - SDS and Na	ative PAGE.				
Unit V	Cell and	Cell and Molecular Biology: -Onion root tip-squash preparation and study of					
		rasshopper testis- Squash preparation and	•				
	larva- Squ	ash preparation of giant chromosome and b	ouccal mucosal epi	thelium-smear			
	preparatio	n to detect Barr body.

Outcomes	By the end of the course, students should obtain knowledge to: identify the key
	pest insects of the major horticultural crops, understand the pest complexes of the
	agro-ecosystems; have a broad idea of chemical ecology and tritrophic interaction
	amongst host plants, pests and their natural enemies.

Resources Institute, TERI. Outcomes On successful completion of this course, students should be able to discuss the application of biotechnology in research and industry.		IV Semester					
unit-I Unit-I Unit-I Introduction to Animal Biotechnology: Definition - animal cell structure - macromolecules in the cell, concepts of genetic engineering, the scope of biotechnology, the principle of recombinant DNA technology, application of genetic engineering - GMO - transgenic animals- GEAC in India. Unit-II Gene cloning: Definition - steps- types of vectors used-Cloning in yeast Saccharomyces cerevisiae. E. coli vectors - pBR322 and its derivatives; Cloning vectors for Gram-negative bacteria - Lambda bacteriophage vectors, filamentous phages, Cosmids, Plasmids, Phagemids. Cloning in Gram-positive bacteria (Bacillus subrilis). Genetic engineering tools. Nucleic acid manipulating enzymes. Promoters, Selectable markers and reporters used in rDNA, technology. Restriction digestion, Ligation, Transformation, Selection of Recombinants. Construction of gene libraries. Unit III Nucleic acid hybridization techniques; Molecular probes (Types of probes and its construction); probe labeling. Nick translation, End labeling and Random primer labeling. Polymerase chain reaction and its variants; DNA fingerprinting; DNA sequencing first generation sequencing methods (Maxam and Gilbert sequencing, Sanger's dideoxy sequencing, Pyrosequencing, PCR based sequencing and hybridization sequencing). Second generation sequencing methods. Site-directed mutagenesis; DNA microarray; chromosome walking and jumping. Molecular techniques in prenatal diagnosis gene therapy. Unit IV Animal tissue culture: -History, animal cell culture media, cell type, cell growth kinetics, primary culture and subculture. Development of cell lines, types of culture methods - organ, histotypic, cell culture, sten cell culture, tissue engineering, scale-up - monolayer and suspension, Pharmaceutical products (Vaccine, Humulin, etc), valuable cell culture products - Insulin, tissue plasminogen activator, blood factors. Embryo transfer & transgenic animal technology: -Artificial insemination in cattle, superovulation, embryo transfer, mating, spli

Unit IV Animal tissue culture: -History, animal cell culture media, cell type, cell growth kinetics, primary culture and subculture. Development of cell lines, types of culture methods - organ, histotypic, cell culture, stem cell culture, tissue engineering, scale-up - monolayer and suspension, Pharmaceutical products (Vaccine, Humulin, etc), valuable cell culture products - Insulin, tissue plasminogen activator, blood factors. Unit V Embryo transfer & transgenic animal technology: - Artificial insemination in cattle, superovulation, embryo transfer, mating, splitting, cryopreservation, stem cell method, targeted gene transfer - knock in and knock out technology, transgenic mince, goat, cattle - gene pharming & other applications. Reference and Text Books: - Alberts, B., Johnson, A., Lewis, J., Raff, M., Roberts, K and Walter, P. (2007). Molecular biology of the cell. New York: Garland Publishing Inc. Beaker, W., Kleinsmith, L., Hardin, J & Bertoni, G. (2008). The world of the cell: Benjamin Cummings. Nagabhushanam, R., Diwan, A. D., Bernard J. Zahuranec&Sarojini R. (2004). Animal Biotechnology: MJP Publications. Singh, B., Gautam, S.K.&Chauhan, M. S. (2012). Textb							
Unit III Nucleic acid hybridization techniques; Molecular probes (Types of probes and its construction); probe labeling. Nick translation, End labeling and Random primer labeling. Polymerase chain reaction and its variants; DNA fingerprinting; DNA sequencing first generation sequencing methods (Maxam and Gilbert sequencing, Sanger's dideoxy sequencing, Pyrosequencing, PCR based sequencing and hybridization sequencing). Second generation sequencing methods. Site-directed mutagenesis; DNA microarray; chromosome walking and jumping. Molecular techniques in prenatal diagnosis gene therapy. Unit IV Animal tissue culture: -History, animal cell culture media, cell type, cell growth kinetics, primary culture and subculture. Development of cell lines, types of culture methods - organ, histotypic, cell culture, stem cell culture, tissue engineering, scale-up - monolayer and suspension, Pharmaceutical products (Vaccine, Humulin, etc), valuable cell culture products - Insulin, tissue plasminogen activator, blood factors. CURRICULUM VITAE

Name : **Dr. B. Vaseeharan**Designation : Professor and Head

Address : Department of Animal Health and Management

Science Block, 6thFloor, Alagappa University

Karaikudi

Phone : ++91 9894720893 Fax : +91-4565-225202 Email : vaseeharanb@gmail.com

:vaseeharanb@alagappauniversity.ac.in

Educational qualification:

- Ph.D (Zoology) University of Madras, Chennai, India.
- M.Phil. (Zoology) Scott Christian College, ManonmaniamSundaranar University, Tirunelveli, India.
- M.Sc. (Zoology) Scott Christian College, ManonmaniamSundaranar University, Tirunelveli, India.
- B.Ed. (Biology and Education) Madurai Kamaraj University, Madurai, India.
- B.Sc. (Zoology) Sivandhi Adhithanar College, Madurai Kamaraj University, Madurai, India.

Professional experience:

- Professor & Head, Department of Animal Health and Management (from 2013 to till date)
- Associate Professor & Head, Department of Animal Health and Management (from 2008 to 2013)
- Teaching Experience 13 Years
- Research Experience 18 Years

Area of Research:

- Invertebrate Immunotherapy
- Nanopharmacology
- Biomaterials

Honours and Awards:

- 2018, Leading Educationalist of India Award, Friendship forum regarding "Economic Growth and National Unity" held at New Delhi on 25th September 2018.
- 2018, Bharat Excellence Award, Friendship forum regarding "Global brotherhood and peace" held at New Delhi on 25th September 2018.
- 2009, Young Scientist Award-SERC-FAST TRACK, Department of Science and Technology, New Delhi, India.
- 2004-07, Postdoctoral fellow award, in National Taiwan Ocean University, Taiwan by National Science Council-Taiwan.
- 2003-04,Postdoctoral fellow award, in National Tsing Hua University, Taiwan by National Science Council-Taiwan.
- 2001-03, Postdoctoral award by National Agriculture Technology Project (NATP), Indian Council of Agricultural Research (ICAR), New Delhi, India.

Recent publications:

- Protective activity of beta-1, 3-glucan binding protein against AAPH induced oxidative stress in Saccharomyces cerevisiae. International Journal of Biological Macromolecules
- Facile synthesis of haemocyanin-capped zinc oxide nanoparticles: Effect on growth performance, digestive-enzyme activity, and immune responses of *Penaeussemisulcatus*. **International Journal of Biological Macromolecules**
- Exposure of *Oreochromisniloticus*to sub-lethal copper concentrations: Effects on growth, antioxidant, non-enzymatic antioxidant, oxidative stress and non-specific immune responses. **Journal of Trace Elements in Medicine and Biology**
- Synthesis of ZnO nanoparticles using insulin-rich leaf extract: Anti-diabetic, antibiofilm and anti-oxidant properties. **Journal of Photochemistry & Photobiology, B: Biology**
- In vitro and in vivo toxicity assessment of selenium nanoparticles with significant larvicidal and bacteriostatic properties. Materials Science & Engineering C

Total Publications: 172, Cumulative Impact factor: 370, Total Citation: 3844, h-index: 34, i10-index: 92

Name : Prof. Dato' Dr. Alieen Tan ShauHwai

Designation : Director of Centre for Marine and Coastal Studies

Address : UniversitiSains Malaysia (USM)

Email : alieen@usm.my

Educational qualification:

- Ph.D., in Marine Biology, UnversitiSains, Malaysia.
- Master of Science in Marine Biology, UnversitiSains, Malaysia
- Bachelor of Science in Microbiology, University kebangsaan, Malaysia, Sabah

Professional experience:

- Working Experience 30 Years
- Research Experience 27 Years

Area of Research:

- Expertise is in marine science, specializing in mariculture and conservation of molluscs.
- Focus on the biodiversity of marine invertebrates of Malaysian Seas and conducting research on the
 physiological responses of invertebrates, in particularly the responses of molluscs towards an acidic
 environment.

Honours and Awards:

• The first woman president of the 53-years old UNITAS Malacologica, which is based in Belgium, from 2013-2016

Recent publications:

- Evaluating Integrated Coastal Zone Management efforts in penang Malaysia
- Systematics, genetics, and biogeography of intertidal mites (Acari, Oribatida) from the Andaman Sea and Strait of Malacca
- Environment & Resource Management ERM-01 Presentation Type: Oral Coastal Zone Management in Penang, Malaysia: Governance, Challenges and Recommendations

Total Publications: 92, Total Citation: 598, h- index: 9, i10- index: 9

Name : **Prof. SITI AZIZAH MOHD. NOR**

Designation : Principal Research Fellow Address : University Malaysia,

Terengganu

Email : s.aziah@umt.edu.my

Educational qualification:

- Ph.D., (University of Cardiff, Wales, UK)
- M. Sc., (University of Swansea, Wales, UK)
- B. Sc., (University of Newcastle-Upon Tyne, UK)

Professional Experience:

• Teaching Experience – 30 Years

Area of Research:

- Population genetics and phylogeography research, for conservation of wild and captive populations, mainly of important aquatic organisms.
- Identification of genetically optimal broodstock at the initiation of a breeding programme achieved through the utilisation of molecular markers

Honours and Awards:

- Member of the Asian Society of Ichthyologists since 2014 and Treasurer of ASEAN-Fisheries Education Network (ASEAN-FEN) from 2015
- Coordinator of the working committee for the preparation of the dossier to nominate Sungai Merbok, a mangrove biodiversity hotspot in north-west Peninsular Malaysia as a UNESCO Biosphere

Recent publications:

- Short-run and Long-run Relationship between Economic Growth, Foreign Direct Investment, Trade Liberalization and Education on Income Inequality: Evidence from Indonesia
- Deep genetic differentiation between two morphologically similar species of wolf herrings (Teleostei, Clupeoidei, Chirocentridae)
- DNA barcoding of shrimps from a mangrove biodiversity hotspot
- Effect of *Lactobacillus acidophilus* supplementation on growth performances, digestive enzyme activities and gut histomorphology of striped catfish (*Pangasianodonhypophthalmus*Sauvage, 1878) juveniles
- Influence of mannan oligosaccharide supplementation on haematological and immunological responses and disease resistance of striped catfish (*Pangasianodonhypophthalmus*Sauvage, 1878) juveniles

Educational qualifications

- Bachelor of Science in Zoology, Government Arts College, Karur
- Master of Science in Zoology, Jamal Mohamed College, Thiruchirappalli
- M. Phil., in Zoology, Bharathiar University, Coimbatore
- Ph.D., in Entomology, Bharathidasan University, Thiruchirapalli.

Professional experience:

- Junior Research Fellow, School of Life Sciences, Bharathidasan University, Tiruchirappalli during Jan. 1991 Feb. 1993 (2 years)
- Senior Research Fellow (CSIR, New Delhi), School of Life Sciences, Bharathidasan University, Tiruchirappalli during Mar. 1993 Feb. 1996 (3 years)
- Research Scientist, Entomology Research Institute, Loyola College (Autonomous), Chennai Mar. 1996 to May 2000 (4 years & amp; 2 Months)
- Handled classes to students of "Diploma in Basic Biotechnology", at Entomology Research Institute, Loyola College (Autonomous), Chennai from January 1998 May 2000.
- Senior Lecturer, P.G. & Seni
- Associate Professor, Department of Zoology, University of Madras, Guindy Campus, Chennai 600 025, 05thMarch 2008 to till date.
- TeachingExperience: 20
- Research Experience: 25

Honours and Awards:

- Department of Science and Technology (DST), Government of India, Scheme for Young Scientists (SYS), 1998
- Department of Biotechnology (Government of India) Overseas Associate ship, Long term, 2000
- Department of Biotechnology (Government of India) Overseas Associate ship, Short term, 2006

Recent publications:

- Occurrence of natural lectin with bacterial agglutination property in the serum of lepidopteran pest, Parasalepida
- Antioxidant and GC-MS analysis of Annona reticulata leaves extract against unsecure free radicals
- β-Galactoside binding lectin from caddisfly larvae, *Stenopsychekodaikanalensis* with selective modes of antibacterial activity: Purification and characterization
- Population genetic structure and molecular diversity of *Leucinodesorbonalis* based on mitochondrial COI gene sequences
- Antiviral activity of selected medicinal plants and marine sea weeds on the grasserie infected larvae of silkworm, *Bombyx mori*

Email : <u>astaganesan@gmail.com</u>

Educational qualification:

- Ph.D., Centre for Advanced Studies in Botany, University of Madras, Chennai
- M.Sc., KandasamyKandar's College- Velur
- B.Sc., KandasamyKandar's College- Velur

Professional experience:

- Technical director, Technical Advisor to R&D, Skill Development (2018 to present)
- Director, Technical Advisor to R&D (2015-2018)
- Managing Director, Overall Administration and Head R&D, Preparation of Teaching Kits & Molecular Biology Reagents (2008-2015)

Area of Research:

Molecular Biology

Dr.V.Ganesan, The Managing Director of Acme ProGen is a doctorate in Molecular Biology from University of Madras. He has published six international publications and two book chapters.

About the company

Acme ProGen Biotech is a Private Limited company founded in 2007.

The ProGen Biotech is located in Salem, a city in the North-west of Tamil Nadu, India. Acme ProGen is developing and commercializing all kinds of ready-to-use biological teaching and research kits that simplifies and improves the quality research in the life science field. In addition, ProGen supplies instruments/equipments to support life sciences researches. A series of complementary products manufactured by our company and others companies round off the product range. ProGen distributes a highest quality product of biochemicals which are useful to life science researchers in life sciences.

Name : **Dr. E. Kannapiran**Designation : Professor in Zoology

Address : Directorate of Distance Education

Alagappa University Karaikudi- 600 003

Phone : +914565- 223353 Fax : +91-4565-255202

Email : ekannapiran@gmail.com

Educational qualification:

- Ph.D., Marine Biology and Oceanography (Annamalai University)
- M. Phil., Marine Biology and Oceanography (Annamalai University)
- M.Sc., Marine Biology and Oceanography (Annamalai University)
- B.Sc., Zoology (Madurai KamarajUniveristy)

Professional experience:

- Professor of Zoology, Directorate of Distance Education, Alagappa University, 13.08.2014 onwards
- Associate Professor in Zoology, Directorate of Distance Education, Alagappa University, 13.08.2008 12.08.2014
- Lecturer- Oceanography and Coastal Area Studies, Alagappa University, 16.08.1999-11.08.2008
- Lecturer (Adhoc), Oceanography and Coastal Area Studies, Alagappa University, 28.12. 1998 15.08.1999
- Teaching Experience: 21 yearsResearch Experience: 20 years

Area of Research:

• Marine Biology: Marine Microbiology, Coral Reef and Marine Fouling

Additional Responsibilities:

- Dean, i/c College Development Council, Alagappa University from 04.03.2019 Onwards
- Director, Curriculum Design and Development Cell, Alagappa University from 25.07.2018 Onwards
- Co-Ordinator (PCP) Alagappa University from 28.10.2013 Onwards
- Member of Project Monitoring Unit RUSA committee on Academic Affairs from 2019 Onwards
- Ex-officio Member of Broad based board of studies in the process of redesigning the curriculum of all programmes offered in Alagappa University.

Recent publications:

- Screening, partial purification of antivibriosis metabolite sterol-glycosides from *Rhodococcus sp.* against aquaculture associated pathogens– **Microbial Pathogenesis**
- New geographical record of the moray eel *Gymnothoraxreticularis*, bloch, 1795 (Anguilliformes: Muraenidae) with Taxonomic status and Distribution from Southwest coast of India Thalassas: An International Journal of Marine Sciences.
- Record of "Near Threatened "crocodile shark *Pseudocarchariaskamoharai* (Pseudocarchariidae) from Indian Exclusive Economic Zone –**Thalassas: An International Journal of Marine Sciences.**
- Invitrobiomedicinal properties of Pyrrolidine-2,4- Dione derived from a novel actinobacterium *Streptomyces rochei*, a green approach **Biocatalysis and Agricultural Biotechnology**
- Biogenic synthesis of gold nanoparticles from *Halymeniadilatata* for pharmaceutical applications: Antioxidant, anti-cancer and antibacterial activities **Process Biochemistry**

Total Publications: 51, Cumulative Impact factor: 52, Total Citation: 431, h-index: 12, i10-index: 14

Educational qualification:

- Ph. D. (Zoology-Biotechnology Interdisciplinary), Dept. of Biotechnology, University of Madras, India (2006)
- M. Sc. Zoology, Jamal Mohamed College, Bharathidasan University, India (1997)
- B. Sc. Zoology, A.V.V.M. Sri Pushpam College, Bharathidasan University (1995)

Professional experience:

- Associate Professor, Department of Animal Health & Management, Alagappa University, Karaikudi -630 003 (31.08.2015 to till date)
- Assistant Professor, Department of Bioinformatics Alagappa University, Karaikudi 630 003 (26.05.08 to 30.08.2015)
- Teaching Experience: 12 Years

Area of Research:

- Aquaculture Biotechnology
- Phage therapy for Vibrio spp control in Aquaculture
- Cancer biology.

Honours and Awards:

- Tamil Nadu Junior Research Fellow by Government of Tamil Nadu
- Teaching cum Research Fellow by Department of Biotechnology, University of Madras.
- Post Doctoral Research Fellowship, Department of Genetics, MohidalUniveristy, Thailand.
- DST-Fast Track Young Scientist Award by Dept of Science & Technology, New Delhi
- National Young Leaders Programme Award by Ministry of Youth Affairs & Sports, New Delhi
- ALU Best NSS Programme Officer Award by Alagappa University, Karaikudi.

Recent publications:

- Efficacy of potential phage cocktails against Vibrio harveyi and closely related Vibrio species isolated from shrimp aquaculture environment in the south east coast of India. **Veterinary Microbiology**.
- Morphological characterization and biocontrol effects of Vibrio vulnificusphages against Vibriosis in the shrimp aquaculture environment. **Microbial Pathogenesis.**
- Green synthesis of silver nanoparticles using Lippianodiflora aerial extract and evaluation of their antioxidant, antibacterial and cytotoxic effects. **Resource-Efficient Technologies**.
- Theoretical, biological and in silico studies of pendant-armed heteroleptic copper (II) phenolate complexes. **Journal of Molecular Structure.**
- Antiproliferative and apoptosis-induction studies of 5-hydroxy 3', 4',7-trimethoxyflavone in human breast cancer cells MCF-7: an in vitro and in silico approach. **Journal of Receptors and Signal Transduction**.

Total Publications: 102, Cumulative Impact factor: 101, Total Citation: 704, h- index: 15, i10- index: 26

Educational qualification:

- Ph.D., Marine Biology ,CAS in Marine Biology, Annamalai University
- M.Sc., Coastal Aquaculture ,CAS in Marine Biology, Annamalai University
- B.Sc., Zoology (Thiagarajar College, MKU, Madurai)

Professional experience:

- Assistant Professor, Department of Animal Health and Management, Alagappa University, from 2008 to till date.
- Production Manager, The Handy Water base (Pvt)-2005 to 2008
- Assistant Manager, The Water base Ltd, 1999 to 2005
- Teaching Experience 11+ Years
- Research Experience 17 Years

Area of Research:

- Isolation of bioactive compounds herbal plants and marine seaweeds for anticancer properties.
- Isolation of therapeutic potential sulfated polysaccharides from seaweeds.
- Control and prevention of bacterial pathogens using plant compounds, probiotics and nanoparticles

Honours and Awards:

- 2006 to 2008, Approved Sea food technologist
- 2003 to 2005, Found a new method of brood collection to reduce the virulence of virus like WSSV, MBV, YHV worked in collaborated project (Water base India Ltd tie up with INVA and Monotech, USA).
- 2000 to 2003 standardized the Soft Shell Mud Crab production for commercialization and exported to Handy International, USA.
- 1999 to 2000, Found a new method for culturing the Soft Shell Mud crab first people in India The Water base India Ltd
- 1995 to 1997, Project fellow Shrimp spawner development for Hatchery purposes approved by Tamilnadu state council for science and technology.
- 1994, Project fellow M/S Sriram Marine Harvest Ltd, Poompuhar (400 ha includes, Hatchery, Farm)

Recent publications:

- Antibacterial efficacy of a fucoidan fraction (Fu-F2) extracted from Sargassumpolycystum— <u>International Journal of Biological Macromolecules</u>
- Synthesis, characterization, anti-proliferative and wound healing activities of silver nanoparticles synthesized from *Caulerpascalpelliformis* **Process Biochemistry**
- Studies on structural properties and immune-enhancing activities of glycomannansfrom *Schizophyllum commune* **Carbohydrate Polymers**
- Structural characterization of a polysaccharide from *Certariaislandica* and assessment of immunostimulatory activity **Process Biochemistry**
- Ecofriendly one pot fabrication of methyl gallate @ ZIF-L nanoscale hybrid as pH responsive drug delivery system for lung cancer therapy—**Process Biochemistry**
- Biogenic synthesis of gold nanoparticles from *Halymeniadilatata* for pharmaceutical applications: Antioxidant, anti-cancer and antibacterial activities **Process Biochemistry**

Total Publications: 52, Cumulative Impact factor: 97, Total Citation: 699, h-index: 15, i10-index: 19

Name : **Dr. M. Biruntha**Designation : Assistant Professor

Address : Department of Animal Health and Management

6th floor, Science block Alagappa University

Karaikudi

Phone : +91 4565 223356

Email: biruntha6675@gmail.com,

biruntham@alagappauniversity.ac.in

Educational qualification:

- Ph.D -Zoology
- M.Phil –Zoology
- M.Sc-Zoology
- M.Ed–Education
- B.Sc-Zoology

Professional experience:

- 1st August 2008 to 25th January 2016 –Assistant Professor, Dept of Biological Science, Mother Teresa College of Education,Illuppur,Pudukkpttai.
- 30th January 2016 to till date, Assistant Professor, Dept.of Animal Health and Management, Alagappa University.
- Teaching Experience : 11+
- Research Experience: 4

Area of Research:

Vermitechnology

Honours and Awards:

- Dr.S.Radhakrishnan Teacher's Welfare Association
- Council for Teacher Education, Tamil Nadu State centre
- Indian Academic Researchers Association
- Tamilnadu Scientific Research Organization

Recent publications:

- Methylation-dependent circulating microRNA 510 in preeclampsia patients Hypertension Research.
- MicroRNA21 and the various types of myeloid leukemia- Cancer Gene Therapy
- Dissecting the role of miR-21 in different types of stroke-Gene
- Dissecting the functional role of microRNA 21 in osteosarcoma- Cancer Gene Therapy
- Methylation dependent microRNA 1285-5p and sterol carrier proteins 2 in type 2 diabetes mellitus Artificial Cells -Nanomedicine, and Biotechnology

nithyav@alagappauniversity.ac.in

Educational qualification:

- **B.Sc., Biochemistry**, Shrimati Indira Gandhi College, Bharathidasan University.
- M.Sc., Biochemistry, Shrimati Indira Gandhi College, Bharathidasan University.
- **PGDBI, Bioinformatics,**Shrimati Indira Gandhi College, Bharathidasan University.
- M.Phil, Biochemistry, Bharathidasan University.
- M.Sc., Bioinformatics, Bharathiar University.
- M.Sc., Biotechnology, Periyar University.
- **Ph.D.**, **Biotechnology**, Bharathidasan University.
- M.B.A., Information System Management, Bharathiar University.
- D.Sc, Biotechnology (pursuing) Madurai Kamaraj University.

Professional experience:

- Assistant Professor in Department of Animal Health and Management, Alagappa University, Karaikudi, from 30/01/2016 to Till date.
- Assistant Professor in Department of Microbiology, UrumuDhanalakshmi College (Autonomous), Trichy, from 01/07/2013 to 29/01/2016.
- Assistant Professor in Department of Biotechnology, SrimadAndavan Arts and Science College, Trichy, from 30/05/2007 to 30/06/2012
- Teaching Experience: 10 Years

Area of Research:

Pharmacognosy

Honours and Awards:

- Outstanding Alumnus Award, 2018 in Shrimati Indira Gandhi College, Bharathidasan University.
- Member of Syndicate in Bharathidasan University has been nominated by Hon'ble Chancellor, Governor of Tamil Nadu from 19/07/2018.

Recent publications:

- Hepatoprotective effect of silver nanoparticles synthesized using aqueous leaf extract of *Rhizophoraapiculata*. **International Journal of Nanomedicine**.
- Bioactive compound analysis of *Coriandrum Sativum* L. against microbial keratitis, "Ophthalmology: Breakthroughs in Research and Practice: & IGI Global Book Submission System.
- In silico Structural Analysis of 16S rDNA Sequences of Bacteria Isolated from Keratitis Patients. **Trends in Bioinformatics**
- Efficacy of anti-diarrheal activity of *Pedalium murex* L., in wistar albino rats. **BMC Infectious Diseases.**
- Evaluation of the wound-healing activity of *Hibiscus rosasinensis* L (Malvaceae) in Wistar albino rats. **Indian journal of pharmacology**.

Educational qualification:

- B.Sc., Botany Spl. Industrial Microbiology, The American College
- M.Sc., Sub-Aqua Marine Ecology and Toxicogenomics, Madurai Kamaraj University
- Ph.D., Environmental Biotechnology, Bharathidasan University

Professional experience:

- Junior Research Fellow, Bharathidasan University (10.12.2010 09.12.2012)
- Senior Research Fellow, Bharathidasan University (10.12.2012 30.06.2014)
- Assistant Professor, Alagappa University (31.01.2016 Till Date)
- Teaching experience: 4
- Research experience: 4

Area of Research:

• Molecular Cancer biology.

Honours and Awards:

- Outstanding researcher award, Saveetha Dental College, 2019
- Early Career Research Award by Science and Engineering Research Board, New Delhi, 2016
- Cover Page article Inorganic Frontiers and Chemistry, 2014 **DOI:** 10.1039/C4QI00018H.
- Awarded Junior Research & Senior Research Fellowship by DST-NRDMS (2010 2014).

Recent publications:

- Phloroglucinol-conjugated gold nanoparticles targeting mitochondrial membrane potential of human cervical (HeLa) cancer cell lines. **Spectrochimica Acta A Molecular and Biomolecular Spectroscopy.**
- A perspective on biogenic synthesis of platinum nanoparticles and their biomedical applications. Spectrochimica Acta A Molecular and Biomolecular Spectroscopy.
- Cytotoxicity of phloroglucinol engineered silver (Ag) nanoparticles against MCF-7 breast cancer cell lines **Materials Chemistry and Physics**.
- Coumarin–gold nanoparticle bioconjugates: preparation, antioxidant, and cytotoxic effects against MCF-7 breast cancer cells" **Applied Nanoscience**.
- Gold nanoparticles tethered cinnamic acid: Preparation, Characterization and cytotoxic effects on MCF-7 breast cancer cell lines-**Applied Nanoscience**.
- Proteomics analysis of crude squid ink isolated from *Sepia esculenta* for their antimicrobial, antibiofilm and cytotoxic properties-**Microbial Pathogenesis**.

- M.Sc., Zoology (Madurai KamarajUniversity, Madurai)
- M.Phil., Zoology(Madurai KamarajUniversity, Madurai)
- Ph.D., Zoology (Madurai Kamaraj University, Madurai)

Professional experience:

- Teaching Experience 17 Years
- Research Experience 9 Years

Area of Research:

- Herbal based immunology,
- Nonspecific immune response and specific immune response.

Recent publications:

- Synergistic effect of medicinal plant leaf extracts supplemented diet on non-specific immune responses in fresh water fish *Channastriatus* **International Journal of Zoology Studies**
- Dietary supplement of mixture of medicinal plant leaf extracts on immune response of fresh water fish *Mystuskeletius* **International journal of advanced research**
- Studies on the immunostimulatory effect of extract of *Solanumtrilobatum* and *Ocimum sanctum* in *Mystuskeletius* **International Journal of fishery Aquaculture**
- Synergistic effect of plant extracts supplemented diets on immunity and resistance to Aeromonashydrophila in Mystuskeletius -Journal of Pharmacy and Biological Sciences

CURRICULUM VITAE ALUMINI

Name : **Dr. K. Devi**

Designation : Post Doctoral Fellow Address : Department of Physiology

Eastern Virginia School of Medicine

Virginia

Email : <u>kdevinfmc@gmail.com</u>

Educational qualification:

- Bachelor of Science in BiotechnologyfromDhanalakshmi Srinivasan College of Arts and Science, Perambalur, affiliated to Bharathidasan University, Tiruchirappalli
- Master of Science in Marine Biotechnology from Bharathidasan University, Tiruchirappalli
- Doctor of Philosophy in Animal Health and Management from Alagappa University, Karaikudi.

Professional experience:

- Research Experience 9 Years
- Ph.D project entitled "Mitochondrial genome analysis of type 2 diabetes and associated peripheral neuropathy complication" under the guidance of Dr.N.M.Prabhu, Alagappa University, Karaikudi.
- M.Sc., Dissertation entitled "Molecular study of Indu-Malayali tribe population by using Mitochondrial DNA and Y-Chromosome marker under the guidance of Dr.K.Thangaraj, Centre for Cellular and Molecular Biology (CCMB), Hyderabad

Experience in genetic and phylogenetic techniques

- Sequence alignments
- Phylogenetic tree construction
- Relatedness and common ancestor prediction

Area of Research:

- Diabetology
- Molecular Biology
- Molecular Genetics

Recent publications:

- Mitochondrial ND1 gene mutation analysis in type II diabetes of Karaikudi population
- The prevalence, awareness and potential of complementary alternative medicine in type 2 diabetics living in Madurai, India
- Ameliorative effect of ferulic acid against renal injuries mediated by nuclear factor-kappaB during glycerol-induced nephrotoxicity in Wistar rats
- Type 2 diabetic neuropathy with special reference to mitochondrial role and its effective management
- Awareness on Type II Diabetes and Its Complication among Sivaganga District Population in Tamilnadu: A Cross Section Survey.
