# WATER AND AIR FOR MONEY

Once the scientists said, we will buy the water for money. But we did not believe it. But it becomes true.

Now the scientists and some social workers say, we will buy the air for money. Definitely this will become true. Because environment has been polluting without any hesitation. So, we don't get pure water and pure air.

Due to the use of plastic more vehicles and insanitation, environment is polluted. The People not only pollute this earth. But also the universe the people has many sickness. By new disease.

Every person has diseases of allergy, sinus etc. by this polluted problem. But nobody feel for this. It is continued in the earth. It will be destroyed by us. So we must save our planted blue pearl.
