VILLAGE PLACEMENT PROGRAMME-2019

Venue: ILLUPPAIKUDI

Report
By
DEPARTMENT OF PHYSICS
AND
DEPARTMENT OF MATHEMATICS

About the Village Placement Programme:

The village placement programme was introduced by a former vice-chancellor Dr. P. Kanniyappan of Alagappa University. Under this annual event of Alagappa University, the second year P.G. students of Alagappa University are taken to a nearby village where they stay for three days. During their stay, they carry out activities such as cleaning the streets and temples, desilting the village ponds, Conducting awareness campaigns on the evils of child labour, AIDS, importance of sanitation of homes, streets and villages, significance of women's education specifically the education of the women of weaker sections and teaching the students of village school.

The purpose of this programme is to make students aware of the socioeconomic and educational ambience prevailing in villages. Students are expected to acquaint themselves with the life style of villagers, agriculture, major crops cultivated there and the living standard of them. This programme envisages that if these students, who are taken to villages to have fair knowledge of village life, become high-profile bureaucrats or successful.

Businessmen in future, they can function as ambassadors of change and they can also play a solid role for the betterment and upliftment of the socially, economically and educationally weaker of sections of society. This is the aim and objective of village placement programme.

Iluppaikudi Village:

This year the village was chosen for M.Sc., Mathematics Students for VEP in Iluppaikudi at Sivaganga District. It is located around six kilometres away from Karaikudi.

Team visited:

A team of 98 M.Sc. Mathematics students visited this village for VEP. This team was accompanied by the team coordinator Dr. R. Jeyabalan, Assistant Professor of Mathematics, Alagappa University, Karaikudi. The team stayed in that village on 20-22, September 2019.

Activities:

The activities were inaugurated by Dr. N.Anbazhagan, Professor and Head, Department of Mathematics, Alagappa University, Panchayat President of Illuppaikudi village. The first and most important activity of students was preparation of “NELAVEMBU KASHAYAM” for dengue fever. More over students carried out Economic-Socio-Health survey in Illuppaikudi village on 21-09-2019. They also applied a medical solution in some places of village to destroy larvae of mosquitoes.

The second day programmes (on 24-09-2016) were oriented towards a High school in Ippaikudi. This school was thoroughly cleaned. Students removed bushes in the inside campus and they painted inside walls of the classrooms and M.Sc. students wrote “THIRUKURALS” on walls of class rooms to boost morality of school students.

Every nook and corner of the shrine was cleaned and students removed bushes around the temple and garden of the temple. With these, programmes that day activities came to halt. After lunch student continued cleaning activities in the hall where they were provided accommodation. Then the staff and the students met the Village Panchayat President, thanked him for his need full and throughout co-operation for this programme, and hand over the tools received from his office. After successful village placement programme the team returned to the institution in the evening of 22-09-2019.
