ABOUT THE INSTITUTION

The Alagappa University was established in 1985 fulfilling the dream of Dr. R. M. Alagappa Chettiar. Alagappa Educational Institutions is providing a continuum in education for children of the community to start from kindergarten and pursue studies right up to post doctoral studies in a wide array of subjects.

Alagappa University was brought into existence by a Special Act of the Government of Tamil Nadu in May 1985 with the objective of fostering research, development and dissemination of knowledge in various branches of learning. Alagappa University is recognized by the University Grants Commission (UGC) of India. The University has 44 Departments, 3 Academic Centres and 2 Constituent Colleges (AUCE, AUCPE) on its campus. 45 Colleges located in the districts of Sivaganga and Ramanathapuram are Affiliated to the University. The University is offering UG & PG programmes in the four Faculties (Arts, Science, Education, Management).

Vision of Dr. R. M. Alagappa Chettiar

To nurture students in the pursuit of knowledge and create institutions of excellence that produce proactive and responsible citizens.

Mission of Dr. R. M. Alagappa Chettiar

To promote a value based education enriched with qualities of love, humility, knowledge and wisdom effectively to inspire student achievements.

To provide a caring and inspiring Academics ambience where each student is enabled to surface his innate talents and realize his full potential.

TO BE A WOMEN

To be a woman is a pride,
Full of emotions, thoughts and dreams
It's to be strong and confidence
A pride that shines bright in the universe.

To be a woman is to be a shining star
Shining bright in the near and far
A sparkle of resilience, a glimmer of grace,
A light that shines in the darkest place.

To be a woman is a power
With every breath, there is a will power
And learn to achieve success,
We the power of our society.

To be a woman is to be a warrior A fighter for
love, care, life, and rights. Facing many struggles
in her life With every battle a hope is born. So
being a woman isn't a easy task So let's make us
shine bright, Let our voices be heard. We are
women, we are proud, we are strong , We will
rise, we will shine, we will be the backbone of the
society We are woman, we are the Spark,
Whatever the situations in our life We have to
face it with a confidence ; Being a woman we will
never ever give up.

துணிவு

அச்சத்தை அழித்து
அர்ச்சனை போல் ஒளிரும்
மிச்சத்தை எதிர்த்து
இதெல்லாம் ஒரு பிரச்சினையா
என்று வீரம் கொடுக்கும்
எத்தனை தோல்விகள் கடந்தாலும்
இத்தனை சவால்கள் தந்தாலும்
நெஞ்சம் தளராததே நித்தனையே
தடைகளை கடக்க
உதிரத்தை கொடுக்கும்
சரித்திரங்களை படைக்க
மாறாத முடிவோடு
நிற்க தைரியமத்தை கொடுக்கும்
அதுவே துணிவு.

LOVE IN UNIVERSE

Not a word to deal with but an emotion that is mandatory for human life. It's an emotional urge to love nature and love babies, it may occur out of our control, isn't it?

“The best and most beautiful things in this world cannot be seen or even heard, but must be felt with the heart” a famous quote by Helen Keller. It is a feeling and an art of free emotion that can be built by anyone of any kind. For that, the artist is paramount.

Loyalty, faithfulness, and trustworthiness are predominant in every situation. Love is in every relationship and every relationship contains love. Without love, no one can survive on this earth. “Love isn't a playing toy in a child's hand, but Earth in Mother Earth's hand”. One of the purest forms of love is Mother's love.0

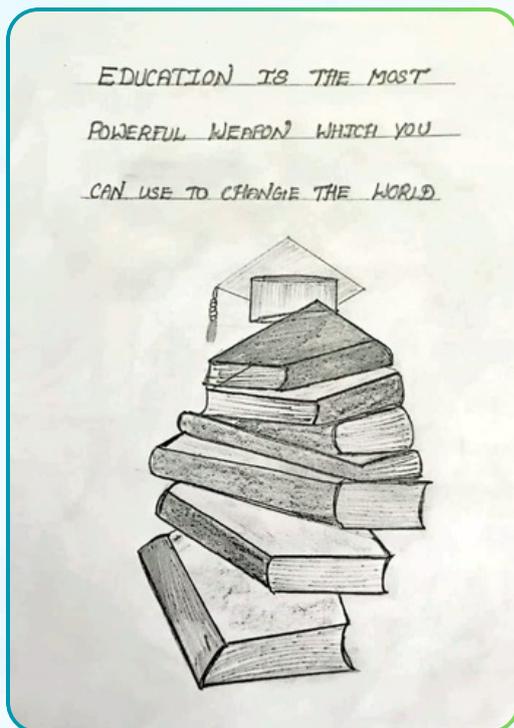

Needn't be worried when you don't get the love of your life love yourself, there originates a new chapter of love called SELF-LOVE. Love is the one that needs to be respected. A single word MISUNDERSTANDING and three letters EGO play a vital role in a relationship.

To define Lovers simply “They are mere friends who are in a relationship”. They usually have fun together but also they discuss every cardinal thing in their life. A person who's in love needs to be patient in order to avoid misinterpretation among them. He/she can't bear the pain when their consociate scolds or shouts at them.

And the most horrible thing in love is missing. It's the toughest job one can perceive in their love life. Even though they are apart from bodies their souls were interconnected and they give warmth as their companions needed. Love is an eternal feeling which cannot give by physical attributes. If one loves truly their hands will go on until their death bed. Here I conclude with love.

RATAN TATA

Born into a Zoroastrian Parsi family in Navsari, his family had fled persecution in Persia, finding refuge in India. Despite coming from a family of priests, Tata broke tradition to become the first businessman in his family, establishing an export trading firm in Mumbai. Tata's education was notable for its Western influence, which he received after showing exceptional abilities in mental arithmetic. He graduated from Elphinstone College in Mumbai as a "Green Scholar."

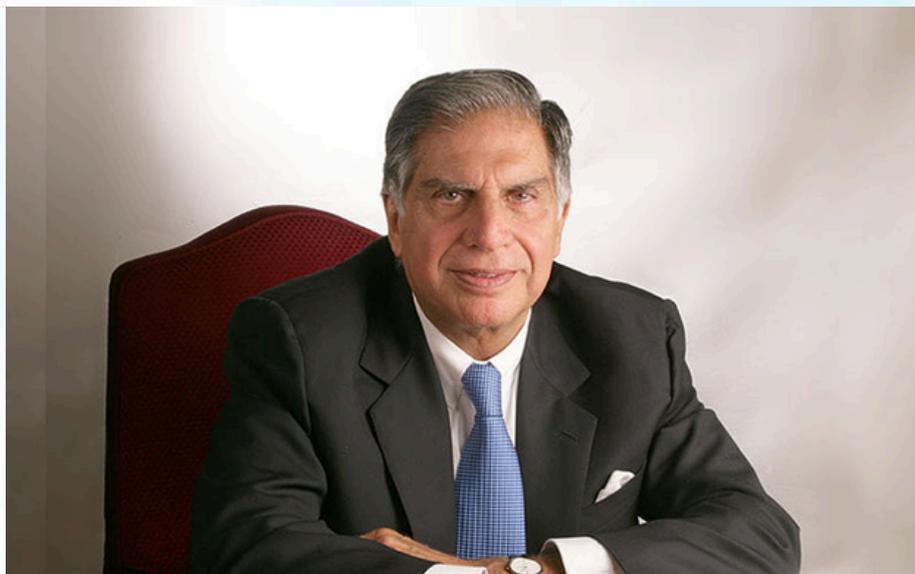

After working in his father's export-trading firm and recognizing opportunities in the cotton industry during a business trip to China, Tata founded a trading company in 1868. He later ventured into the textile industry, buying a bankrupt oil mill and converting it into a cotton mill.

Tata's innovative strategies and commitment to industrial development in India led him to establish key institutions and companies.

This included the Taj Mahal Hotel in Mumbai, which was India's first hotel with electricity, and significant contributions towards the establishment of the Indian Institute of Science, Tata Steel, and Tata Power. He was so influential in the world of industry that Jawaharlal Nehru referred to Tata as a One-Man Planning Commission. Tata was a philanthropist, particularly in the fields of education and healthcare. His donations and foundations laid the groundwork for modern Indian industry and philanthropy.

Tata's legacy includes the city of Jamshedpur, named in his honor, and a lasting impact on India's industrial and social landscape. He married Hirabai Daboo, and their sons, Dorabji Tata and Ratanji Tata, continued his legacy within the Tata Group. Tata's contributions were recognized posthumously, including being ranked first in the "Hurun Philanthropists of the Century" (2021) by total donations of \$102 billion (in 2021 prices) with the start of his key endowments back in 1892.

PATIENCE IS A VIRTUE PROCRASTINATION IS AN EVIL: JUST DO IT

In today's fast-paced world, we often find ourselves torn between two opposing forces: patience and procrastination. While patience is a valuable virtue that can lead to success and personal growth, procrastination is a debilitating habit that can hinder our progress and rob us of our potential.

The Power of Patience:

Patience is the ability to endure difficult circumstances, wait for the right moment, and persevere through challenges. It's a quality that allows us to:

- Achieve long-term goal and Build strong relationships
- Overcome obstacles and Learn from mistakes
- Develop resilience

The Evil of procrastination:

Procrastination, on the other hand, is the habit of delaying tasks, decisions, or actions, often leading to:

- Missed opportunities and Lost productivity
- Increased stress and Decreased motivation
- Regret and guilt

Procrastination can masquerade as patience, but it's essential to recognize the difference. Procrastination is often driven by fear, laziness, or perfectionism, while patience is driven by wisdom, self-control, and determination.

Just Do It:

Here are some strategies:

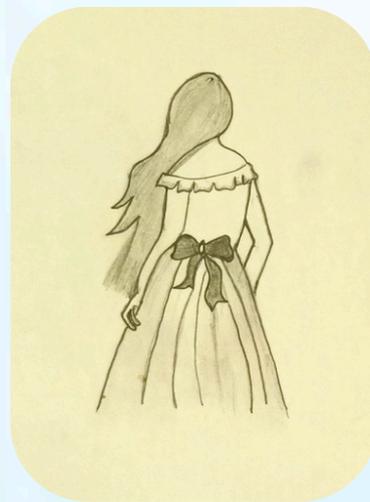

- Break tasks into smaller, manageable steps
- Set clear goals and deadline
- Create a schedule and stick to it
- Eliminate distractions and
- Minimize multitasking

“To lose patience is to lose the battle.”

-Mahatma Gandhi

Movie name - Interstellar (2014)

Genre - Science fiction, Adventure

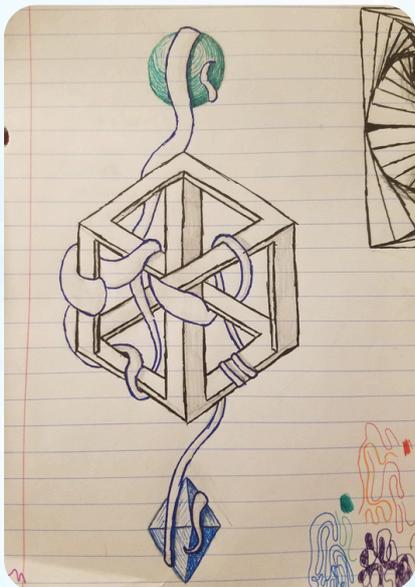

"Interstellar" is a fascinating journey into the space. Directed by Christopher Nolan, the film combines breath taking visuals, a haunting score by Hans Zimmer, and a storyline that bridges the realms of science and emotion.

It is a stunning movie which depicts the adventurous space travel and the depiction of black holes are both awe inspiring and meticulously detailed. McConaughey delivers one of his finest performances, bringing depth and vulnerability to Cooper's character.

Whether you're a fan of science fiction or simply love great storytelling, Interstellar is a must-watch that will leave you inspired and in awe of the possibilities that lie beyond our world.

WHISPERS OF THE HEART

In the quiet whispers of the night,
Two hearts, aching for love's true light,
Drawn together by forces unseen,
Cosmic threads in the universe's scheme.
Silent prayers, like echoes in the air,
Reaching out with tender care,
Fate's hands weaving their paths tight,
Beneath the moon's gentle, watchful light.
Their souls danced to a silent tune,
Eyes speaking in love's ancient rune,
As the moon's pull grew intense,
Their bond transcended all defence.
In an embrace beyond time and space,
Destiny's grip in a celestial place,
A hug that spoke where words would fail,
Binding hearts, love's enduring tale.
Harnessing warmth in a soft connection,
Utilizing touch to show affection,
Generating comfort, pure and true,
A reminder of the beauty shared by me and you.

INSPIRATIONAL QUOTES AND AFFIRMATION

In two realms, women tread their
Chosen lanes,
One seeks degrees, amid lives
Fleeting gains,
Yet there's another, with a
Radiant glow,
Studying not for self, but to
Bestow, her passion ignites,
A fire within,
In the realm of change, she takes
Her flight.

Blossoms of Resilience: Finding Hope Amidst Adversity

In a quiet corner of the city, there lived a girl named Zara, whose life seemed to unfold like a tragedy disguised in mundane routines. Raised in a strict orthodox family, Zara knew little of the warmth of parental love. Her parents, consumed by their own concerns and societal obligations, treated her as an afterthought rather than a priority. Despite their neglect, Zara always put their happiness ahead of her own.

Zara's social circle was non-existent. Her innocence often became a tool for others to exploit, leaving her isolated and vulnerable. She endured harassment even from those she considered friends, shattering her trust in people. Every night, darkness brought not solace but fear, triggering severe panic attacks that she hid within herself, resigned to her silent suffering.

One random day, seeking solace in a book at the park, Zara encountered a stranger who would change her life's course.

A young man approached her with genuine curiosity and asked, "Is everything okay?". His words, so simple yet so profound, unlocked a floodgate of emotions in Zara. For the first time, someone noticed her pain.

Without a word, tears welled up in her eyes, speaking volumes of the anguish she carried silently for so long. The young man, sensing her distress, reached out and gently held her hand.

"Don't worry," he said softly, "I am here with you. I'm a psychiatrist nearby. You can visit me anytime you want."

Zara was taken aback by his kindness and sincerity. She saw in him a beacon of hope amidst her darkness. "Thank you," she managed to whisper, feeling a glimmer of trust she hadn't felt in years.

He continued, "When I first saw you, I noticed a beautiful aura of light around you. It's rare and signifies that you are not just a girl; you are an intellectual angel sent by the universe. I want to help you overcome your struggles and protect that igniting spark within you."

Their connection deepened as they spent more time together. He became her confidant, unravelling the layers of pain she had buried within. With his support, Zara found the courage to confront her past and reclaim her sense of self worth. Months passed, and their bond blossomed into a love that neither had expected. Against all odds, an unexpected stranger had become the most important person in Zara's life.

Their love story, born from empathy and understanding, transcended the ordinary and became something epic—a testament to the connection between heart and soul.

As Zara and her newfound love embarked on a journey together, they knew that life had brought them together for a reason—to heal each other's wounds and to cherish the light they found in one another's eyes.

FRIENDSHIP

The saying goes: “True friends are hard to come by.” If that’s true, then it means that the people in your inner circle are truly to be cherished. So, in honor of unbreakable bonds and forever friends, we collected a host of sweet friendship quotes that prove there’s really no relationship like the one you share with your best friend.

Some of these lines are funny, and others are sentimental, but they all ring true to the bond of friendship. Share them with your besties, your gal pals, your “ride or dies” and your day ones. You all can laugh over the accuracy of some of them, and even shed a few happy tears when you think about how much you all have seen each other through.

Plenty of these would also work as captions for your next girls trip photo dump, serve as well wishes to fill a birthday card or a “just because” text to let your closest friends know you’re thinking of them.

Travel

Travel is simply the process of getting from one place to another by some means of transport. Travel can be done by foot, bicycle, automobile, train, boat, bus, airplane, ship, or other means. People travel for many reasons, including work, school, leisure, and tourism. Travel can be a way to see new places, experience different cultures, and learn new things. Traveling on a regular basis to work is called commuting. Tourism can include relatively short stays between successive movements. Car rental services can help tourists get to their destination and provide more freedom for exploration than public transportation. When starting a travel blog, it's important to write a compelling bio that introduces yourself to your readers and tells them why you started the blog. Many people are not privileged enough to do that. Those who do get the chance, it brings excitement in their lives and teaches them new things.

“The world is a book, and those who do not travel read only one page”.

Kabaddi

An Ancient Sport with a Global Future

It's a legacy of strategy, skill, and endurance that reflects the rich cultural heritage of India. From its origins in rural villages to its rise on the international stage, kabaddi's history is as thrilling as the game itself.

Origin

originated in ancient India, played as a game of physical training and endurance. References in Indian epics like the Mahabharata illustrate this connection, with characters like Abhimanyu displaying kabaddi-like tactics to breach enemy formations.

Legacy

From village fields to packed stadiums, kabaddi has come a long way, but its core remains unchanged—a sport that embodies community, resilience, and the fighting spirit. As kabaddi prepares for the global stage, it's clear that this ancient sport has a dynamic, promising future.

Growth

In the early 20th century, kabaddi moved from rural festivals into organized sport. Maharashtra, India, became a hub for kabaddi competitions, and a standardized set of rules emerged by 1950 with the creation of the All India Kabaddi Federation. Kabaddi became an official sport in the Indian Olympic Games in 1951, fueling its popularity across the country.

Fact Box: Key Milestones

1936: Kabaddi introduced as a demonstration sport at the Berlin Olympics.

1950: All India Kabaddi Federation established; standardized rules created.

1990: Kabaddi becomes an official sport at the Asian Games.

2004: International Kabaddi Federation (IKF) established.

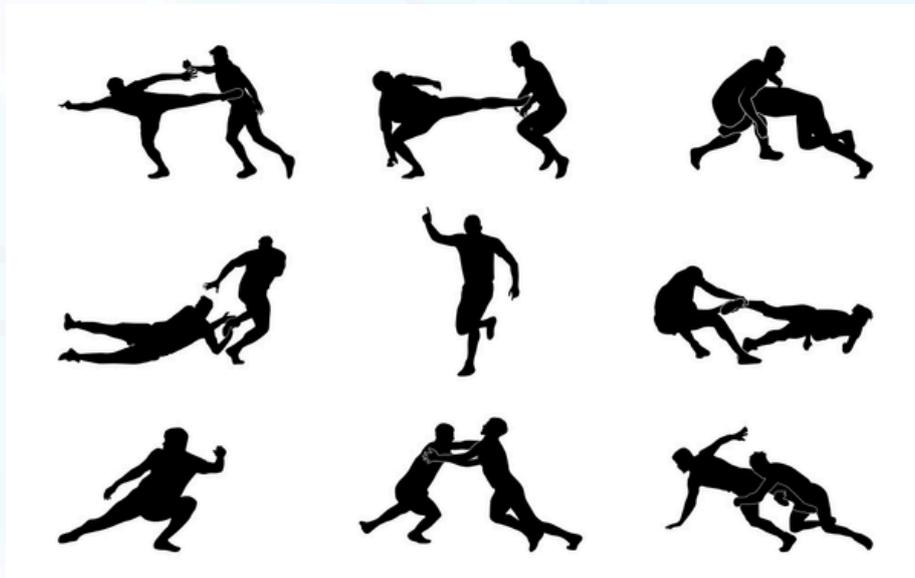

2014: Pro Kabaddi League (PKL) launched in India, popularizing the sport globally.

Kabaddi in the Modern Era The launch of the Pro Kabaddi League (PKL) in 2014 transformed kabaddi into a professional, televised sport that captured millions of new fans.

PKL's success brought a fresh, modern appeal to kabaddi, drawing international players and elevating the sport's profile worldwide. The league's format, fast-paced gameplay, and strategic elements have made kabaddi a thrilling spectator sport and a prominent feature on India's sports scene.

Global Expansion and Future Prospects Today, kabaddi has a growing international following and is pushing for inclusion in the Olympics. Kabaddi federations are expanding in Europe, Africa, and North America, broadening the sport's appeal. As kabaddi continues to evolve, its unique combination of agility, strength, and tactics resonates with fans and athletes across cultures.

Kabaddi's big break came in 1990 when it was included in the Asian Games. India's consistent dominance in the event attracted attention, and kabaddi quickly gained a fan base in South Asia and beyond. The formation of the International Kabaddi Federation (IKF) in 2004 allowed for global competitions, bringing countries like Iran, Japan, and South Korea into the competitive fold.
