CLUB ACTIVITIES

The purpose of the Club is to

- ✓ Keep students abreast of recent research in public health and health promotion.
- ✓ Engage them in critical discussions of research methodologies.
- ✓ Create a conducive environment where students can express their needs, share experiences and help each other.

DEPARTMENT SEMINAR

Academic Club is organizing Departmental Research Meet (Sensor Forum) for discussion about research work done by staff and student and relevant literature reports. The ultimate goal of a research presentation is to share the novel data, information, or suggestions for future directions of the subject. The club wanted to create a forum that students would always look forward to attending and bring challenges to share, resolve and learn from. At the start of the initiative, a full-year schedule was drawn with topics selected by students based on their research interests. The Research Club meetings took place on every Wednesday at 3:30 pm of each month. The meetings are held in a M.Sc. class room at the Department of Bioelectronics and Biosensors.

Parents teachers meeting

A Parents Teachers meeting was organized on Saturday 15th April, 2023 in the department CIR (Center for International Relations) Hall from 9 am to 12pm. Parents-Teachers Meeting was organized by the respective class In-Charge Dr. C. Sekar (Head of the department, Dr. V. Dharuman and Dr. J. Wilson. The main purpose of the meet was to create a common platform, where teachers and parents come together to enrich the student's educational experiences and discuss variety of issues.
